CHRISTUS Santa Rosa Health System is a Clinical Pastoral Education (CPE) component site of the CHRISTUS Health accredited CPE Program. CHRISTUS Health views Clinical Pastoral Education as theological education that utilizes learning by experience in a clinical setting in the company of peers under the supervision of a qualified teacher/practitioner of the ministry of spiritual care.

The primary educational purpose of CPE is to provide you with these educational opportunities:

- to provide spiritual care to individuals and groups in an increasingly effective manner
- to develop and/or enhance your pastoral identity and capacity for theological reflection
- to master a body of interpersonal skills and academic materials related to the provision of spiritual care in a variety of clinical settings
- to see practical application of your academic theological education through interaction within an interdisciplinary team in areas of ethics, spirituality, palliative care, advance care planning, healing and end-of-life issues and rituals
